Hey Kreig!

Will you take a look at Darden...history of hypothermia?

Thank you!

Thank you,

His thinking is a bit hard to follow, but he did express Monday

- 1) fear of Marcus Young, thinking he wanted him sent to the hole
 - 2) feeling cold (ordered him a safety blanket)
 - 3) wanting to go back to where CO Dempsey is.
 - 4) "they are beating me up back there" - I couldn't tell what he was referring to.
- Maybe he will need to go back to his previous wing - thoughts?

I spoke with T/O Haga. He said that Darden got a job but refused to work. He told the officers he didn't want to work. T/O Haga states Darden stays in his room most of the time. Haga states he comes out to the dayroom to get his tray and goes straight back to his room. This has been going on since last week.

When you have a chance, would you ask the Treatment Officers on 1C how Darden is doing?

Ms. Olinger,
I will address this today.

Hello,

I am writing new orders for Mr. Brown in regards to his mental health observation. He is smaller in size and at a higher risk for hypothermia which could potentially result in an ER visit. I was told by staff on 1B there were no thermals available. Is there any way we can find some thermals for this inmate to mitigate potential issues while on 1B (at least while the weather is cooler)?

Thanks,
